

HAS GOOD CHANCE FOR RECOVERY

Load Did Not Penetrate Bowels of New York Millionaire.

FAST FLYING SPECIAL TRAIN

Brought Surgeon and Family From New York Running More Than Mile a Minute.

(Special to The Times-Dispatch.)
 RALEIGH, N. C., December 10.—Physicians attending Mortimer Brooks, the well known New York millionaire, who was desperately shot while hunting in Chatham county yesterday, report this evening that he has a good chance to recover. It was found that the load of shot did not penetrate the cavity of the bowels, although the force of the discharge from the gun did tear the flesh to the cavity so that the entrails protruded. The upper part of the hip was also blown off.

The special train that brought Reginald Brooks and other members of the Brooks family and surgeons from New York to Pittsboro arrived here at 10 this morning, having left New York at 11 o'clock last night, and they were in Pittsboro with the wounded man at 11 o'clock. The train made the forty-three miles from Henderson to Raleigh in forty-one minutes, and the 133 miles from Richmond to Monrovia, their run on the Seaboard Air Line main line, in three hours and forty minutes.

Dr. Polk, a distinguished surgeon from New York, has taken charge of the injured man at Pittsboro.

WINTER SWOOPED DOWN IN EARNEST

(Continued from First Page.)
 To-day, the snow is about three inches deep, and is falling furiously, being as fine as meal and hard and dry. The wind is blowing, and the thermometer has been falling all day, until it seems that to-night we shall have a blizzard. All work was suspended at the state quarries to-day, except at the upper Williams quarry, where some indoor work was done. If the storm continues until the snow reaches a much greater depth, the quarries will not resume work until some of the snow melts away.

Railroads Troubled.
 (Special to The Times-Dispatch.)
 WINCHESTER, VA., December 10.—The heaviest snow fall of the season in the Valley of Virginia began late last night, and continued until this afternoon, during which time nine inches fell, causing great activity among railroad men, who have worked constantly to keep the tracks clear and cutting through drifts. The Cumberland Valley Railroad trains are practically running on time, but all the Baltimore and Ohio trains to-day are greatly behind schedule time.

So far, however, no blockades have occurred, but regular and extra men are kept in readiness for emergencies.

CONSUMPTION CURED AT HOME

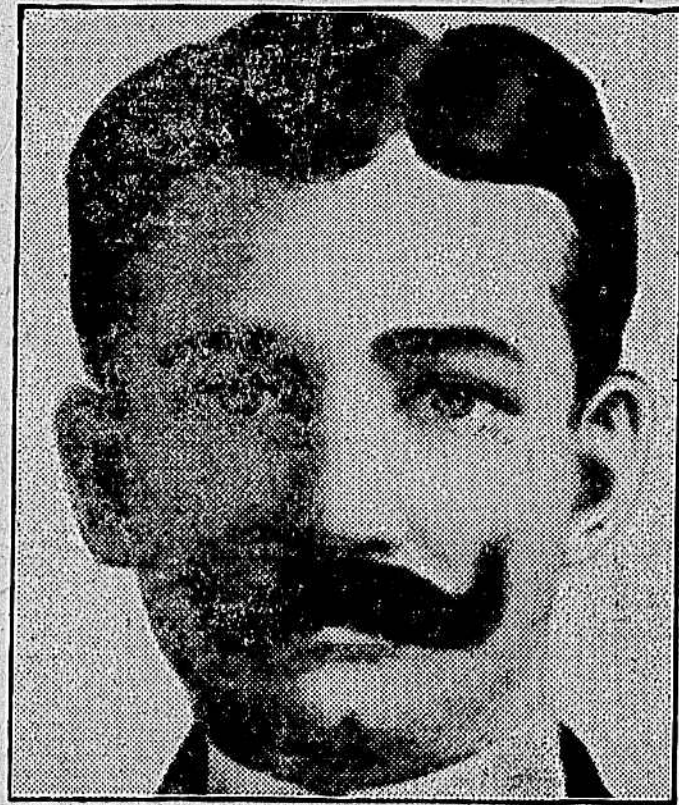

"Keep the System Toned Up with DUFFY'S PURE MALT WHISKEY, and Any Case of Consumption Can Be Cured and Prevented, No Matter Where You Live or What Your Occupation."

"It's Unsatisfactory, Cruel and a Mistake to Send the Afflicted to California, Colorado, Etc., in the Delusive Hope of Recovery."

"The Fight Must Be Made Right at Home Where the Disease Started."

So Agree Lung Specialists Attending the Medical Association's Convention at Atlantic City.

Dramatic Agent Putman Thankfully Tells of His Providential Recovery by DUFFY'S PURE MALT WHISKEY.

MR. C. PUTMAN—Cured of Consumption by Duffy's Pure Malt Whiskey.
 "I was flat on my back in Cincinnati. It was after ten long, hard months on the road as advance agent for theatre companies. I had to be up early and late, exposed to all kinds of weather; often soaking wet and chilled to the bone. My system could stand it no longer. I caught a heavy cold and it settled on my lungs. Doctors dosed me as usual, but I was getting no better. An actor friend recommended Duffy's Pure Malt Whiskey. I tried it. Well, better the first week. In two weeks doctor said he needn't call again, to keep on taking 'Duffy's' and I'd soon be cured. And I am cured; strong, husky, never better in my life, and it took only four bottles. Have come through another season in perfect shape." C. Putman, care Billboard Publishing Company, Cincinnati, Ohio, July 30, 1904.

Duffy's Pure Malt Whiskey

Consumption seldom attacks until the system is run down and weakened by sickness, overwork, worry, exposure or inherited tendencies. The secret of the marvelous success of Duffy's Pure Malt Whiskey in curing and preventing lung troubles lies in the fact that it's the greatest strengthener and health builder known to medicine. It not only checks the ravages of the disease itself, but replaces the weakened, destroyed tissues; helps the stomach to more perfectly digest and assimilate food in order that pure, better, and purer blood will come from it; and regulates and governs the heart's action, so that the circulation will be strong and powerful, carrying health and vigor to every organ and part of the human body. The idea that a consumptive's only chance for life is to send him to Colorado or California to fret himself to death was effectually exploded at the Medical Association's Convention, a few months ago at Atlantic City, where leading consumption specialists declared that the only successful place to treat lung troubles was right at home, where the disease originated, and that Duffy's Pure Malt Whiskey is the most effective means of fighting this awful scourge to the human race.

Duffy's Pure Malt Whiskey is absolutely pure and free from fusel oil—the only whiskey recognized by the Government as a medicine. It has been prescribed by doctors of all schools and sold by reliable druggists and grocers everywhere for over 50 years. \$1.00 a bottle. Every testimonial is published in good faith and guaranteed. Medical booklet free.

CAUTION—Be sure you get the genuine Duffy's Pure Malt Whiskey, manufactured by Duffy Malt Whiskey Co., Rochester, N. Y., and put up in sealed bottles, with the "Old Chemist's" trade mark on the label. It is never sold in flask or bulk. Beware the many substitutes and imitations offered by unscrupulous dealers, because of the extra profit. They not only will not cure, but are positively dangerous.

Mr. V. Donnell, the president and principal stockholder, said to a Times-Dispatch man last night that none of the creditors would lose anything. He fixes the liabilities of the company roughly at something like \$10,000, all fully secured.

The other members of the firm were Mr. V. Donnell, after having been in operation for about one year. No assignment was made, the management deeming it a good thing to shut down, so that the affairs of the concern could be settled without going into the courts.

Mr. Donnell hopes to be able to start up business again by the first of the year.

RAILROAD MEN AND MOVEMENTS

What the Officials and Employees of Local Lines Are Doing.

SEABOARD HOLDING COMPANY

Such a Plan Now Being Prepared—Earnings of the R. F. and P. Line.

Mr. John E. Wagner, city ticket agent of the Norfolk and Western Railway, yesterday declared through to Seaboard, Virginia, Charles Poeppel, eighteen years old, and his sister, aged sixteen. They will leave this city next Tuesday for their journey across the continent, a distance of more than three thousand miles. The young couple have been furnished with letters to conductors at various points of transfer, and every arrangement has been made in advance to secure a prompt, safe and pleasant journey.

Mr. R. H. Bowers, city ticket agent of the Chesapeake and Ohio Railway, is now off on his annual furlough, preferring it at this season to one in midsummer. He is an enthusiastic gunner and fisherman, and is spending his fortnight shooting in his old county of Dorset, William, accompanied by several friends. He is familiar with the best game resorts in the county, and is hunting near White House. Mr. Bowers is expected back the latter part of this week.

The up-town passenger offices of the several railways will be closed December 25th, their only vacation of the holidays. Up to that time all the district and city passenger agents will be unusually busy selling holiday tickets. In general a rate of one and one-third round fare will be charged for the round trip. Tickets will be sold to students holding certificates of identification December 17th to 24th, inclusive, and limited for return passage to January 3, 1905. There will be a general exodus of students to the various schools and colleges of this city next Saturday and at intervals during the following week, all homeward bound for a week or ten days' stay with loved ones. For the general public tickets will be sold December 23d, 24th, 25th and 26th and December 31st and January 1st and 2d, limited for return passage to January 4, 1905. The Richmond Railway Club held its December meeting on Thursday evening at the Richmond Hotel. The most important action of the meeting was the appointment of a committee consisting of Messrs. Lee, Thomas and Brown, to be named by President Owens to consider and make a recommendation with regard to the proposed extension of the scope of the organization and the proposed plan to open permanent quarters in this city. This committee will report to the executive committee of the club, and the latter will submit its report to the January meeting of the club. The idea is to keep quarters open at all times, where interested men may be received and entertained and "any" may be received. The project is yet in embryo, but it is hoped that at the January meeting there will be something tangible to suggest.
